

**Application Part Number:** SL00187 (Front Kit)

**Developed On:** 2022 Subaru BRZ RWD & 2013 Scion FRS RWD

**Recommended Ride Pressure:** 40 PSI  
*(Do not exceed 200 PSI)*

**Recommended Damping:** 15 Clicks  
*(Clockwise clicks from full soft)*

**Recommended Thread Length:** 17 mm  
*(Measurement between lockrings)*

### Installation Notes:

Please check for protruding mounting nuts or studs on the inner strut tower and remove them before install.

**NOTE:** The recommendations and notes in this document were derived from the research and road testing conducted by Bag Riders using the vehicle listed above. If you are installing part(s) on a different vehicle, please ensure that air spring clearances are checked throughout the entire suspension travel range, including fully collapsed (aired out). In regards to damping and pressure recommendations: these are what we preferred for ourselves. We encourage you to experiment and find your most ideal suspension feel on your personal vehicle. Use our recommendations as a starting point!
